Can you draw a healthy meal for a cat?

This might be either a domestic cat's meal or an African wildcat's.

Remember to ask children about where to place food and water (separately).

What is a carnivore?

A carnivore is an animal that hunts and eats meat. Cats are carnivores and need to eat meat to stay healthy.

If we fed Felix too much, could you draw what might happen to him?

Felix may become overweight and obese. This could make him poorly.

What do domestic cats (like Felix and Rosie) like to eat and drink?

Domestic cats like to eat cat food.

Food and water need to be placed away from each other and litter trays.

Domestic cats also keep watch while they eat/drink.

What do African wildcats (like Nafisa) like to eat and drink?

African wildcats are hunters.

They drink from rivers and will never eat near to where they drink.

While they drink, they look out for predators.

Should cats eat human food?

No! This could make them poorly!
