

# Can you make the perfect home for a Syrian hamster?

**1. On a piece of paper can you draw, colour and cut out these items for a pet hamster**

- 2 different hamster bedrooms filled with soft tissue
- A water bowl
- Pieces of scattered food
- Tunnels

**2.** Place some string on the floor in a large rectangle shape or place some large sheets of newspaper on the floor to make the outline of a lovely big cage and then place your cut out items inside.

**3.** Your hamster also needs an empty cardboard box to climb on and explore – can you find one or two to add to your cage?

**4.** Your hamster home will also need a deep layer of paper bedding to make it comfy – use some scrunched up sheets of newspaper instead and see how high you can pile it!

**5.** When your home is all finished, colour in and cut out this hamster. Think of a name for him / her and find a favourite spot in your cage for it to go.

**Congratulations! Your happy hamster home is complete.**

We'd love to see your creations so why not ask an adult to take a photo and share it with us at [community@woodgreen.org.uk](mailto:community@woodgreen.org.uk) or upload it onto our Woodgreen facebook page.

Happy hamster  
home making!
