Helping pets and their people

Rat & Mouse Ladder

What you will need:

- An old sheet or towel
- Scissors

Step 1:

Cut 3 strips of material from

your sheet or towel, around 50cm long by 5cm wide. Tie the strips together with one knot at the end.

Step 2:

Plait the strips together. Try to make the plait nice and tight.

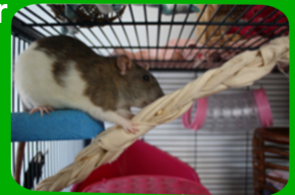

Step 3:

Keep going until all the material is fully plaited and tie a knot in the end. It should look like a ladder!

Step 4:

Hang the finished ladder in your rat or mouse cage and watch them explore and climb!

Top Tip: Hide some treats inside the plait so your rats or mice can search for them!
