

# MAKE

## Christmas Pressies for Pets

Have a go at making this

### fab snuffle rug

They'll love it!

#### You'll need:

- A plastic bath mat with holes in
- Fleece material in different colours
- Scissors

#### START HERE

Cut the fleece into long strips of about 8cm wide by 25cm long.

1.

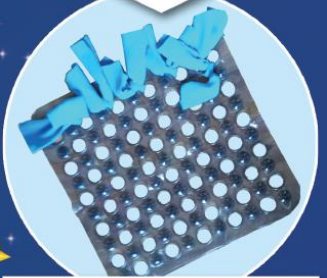

Push a strip of fleece through a hole in the mat and out through the hole diagonally next to it.

2.

Tie a single knot and leave the ends loose - make sure the long ends are facing upwards.

3.

When complete, sprinkle treats and hide them in the mat.

6.

Your pet will love trying to find them and it'll keep them entertained for ages!

Repeat step four until every row has been filled.

5.

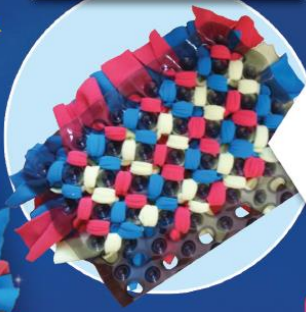

Repeat steps two and three for every hole in the first row.

4.

Why not use different colours to make an interesting pattern?

The back should look something like this.

### Have fun!

### Ta da! a huggable, snuggable rug for your furry friend!

Remember Pet Pals, never leave pets alone with anything they can chew or swallow.
